Extensive Teaching Guide & Student Activities. Michael Faraday aimed his lectures toward those new to science, especially young people. His lectures remain today an excellent introduction to the scientific method and serve well as an entry point to the chemical sciences.

Michael Faraday's The Chemical History of a Candle

Chemical warfare (CW) involves using the toxic properties of chemical substances as weapons. This type of warfare is distinct from nuclear warfare and biological warfare, which together make up NBC, the military acronym for nuclear, biological, and chemical (warfare or weapons), all of which are considered "weapons of mass destruction" (WMDs). None of these fall under the term conventional ...
