

advances in biological heat pdf

1.. IntroductionPlastics are man made long chain polymeric molecules (Scott, 1999).More than half a century ago synthetic polymers started to substitute natural materials in almost every area and nowadays plastics have become an indispensable part of our life.

Biological degradation of plastics: A comprehensive review

Countercurrent exchange is a mechanism occurring in nature and mimicked in industry and engineering, in which there is a crossover of some property, usually heat or some component, between two flowing bodies flowing in opposite directions to each other. The flowing bodies can be liquids, gases, or even solid powders, or any combination of those. For example, in a distillation column, the ...

International Journal of Biological Macromolecules is an established international journal of research into chemical and biological aspects of all natural macromolecules.It presents the latest findings of studies on the molecular structure and properties of proteins, macromolecular carbohydrates, glycoproteins, proteoglycans, lignins, biological poly-acids, and nucleic acids.

International Journal of Biological Macromolecules - Elsevier

Various types of biological warfare (BW) have been practiced repeatedly throughout history. This has included the use of biological agents (microbes and plants) as well as the biotoxins, including venoms, derived from them.. Before the 20th century, the use of biological agents took three major forms: . Deliberate contamination of food and water with poisonous or contagious material
