2 understood once it is seen that it is these imponderables of practice which distinguish the different and ranked modes of culture acquisition, early or

**Introduction from: Distinction: A Social Critique of the**

Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.
