Staff Audit Practice Alert No. 15 October 5, 2017 Page 6 The new revenue standard provides two transition options for applying the new standard (full or modified retrospective application).¹⁹ A full retrospective application requires the recasting of prior year financial statements as if the new standard had been

STAFF AUDIT PRACTICE ALERT NO 8 - PCAOB

An information technology audit, or information systems audit, is an examination of the management controls within an Information technology (IT) infrastructure. The evaluation of obtained evidence determines if the information systems are safeguarding assets, maintaining data integrity, and operating effectively to achieve the organization's goals or objectives.

Audit - Wikipedia

Continuous auditing is an automatic method used to perform auditing activities, such as control and risk assessments, on a more frequent basis. Technology plays a key role in continuous audit activities by helping to automate the identification of exceptions or anomalies, analyze patterns within the digits of key numeric fields, review trends, and test controls, among other activities.
