Python for Bioinformatics (Jones and Bartlett Series in

Biomedical Sciences (BS) is an open access, peer-reviewed journal that encompasses all area of medical microbiology, clinical virology, clinical epidemiology, genetic epidemiology, and biomedical engineering and publishes reviews, original articles, and short communications by individual scholar and research groups.

Biomedical Sciences :: Science Publishing Group

American Journal of Biomedical and Life Sciences (AJBLS) provides a forum for sharing timely and up-to-date publication of scientific research and review articles. The journal publishes original laboratory methods, industrial design, related technical tools, and methods-oriented review articles on all aspects of biomedical and life sciences.

American Journal of Biomedical and Life Sciences

Implications of bioinformatics on the development of epitope-based vaccines are described. A compilation of useful bioinformatics tools for vaccine development is presented.

An overview of bioinformatics tools for epitope prediction

British Biomedical Bulletin is an open access, peer reviewed journal with a wide scope and aim to publish unique and genuine information related to various human and non-human based biomedical experimental studies. Biomedical Bulletin aims to publish related information through, research articles, review papers, case reports, short communications, Mini reviews, Commentaries and several other ...
