For non-majors biology courses. Compelling and relatable stories engage students in learning biology . Colleen Belk and Virginia Borden Maier have helped students understand biology for more than twenty years in the classroom and over ten years with their popular text, Biology: Science for Life.

Biology Science for Life with Physiology 5th Edition (PDF)

molting. A bed bug nymph must take a blood meal to molt successfully. After growing through five in-star molts, the bed bug becomes an adult. Adult bed bugs, both male and female, must also take regular blood meals to reproduce. The diagram above illustrates the bed bug lifecycle including all instars, before and after feeding.
